SEAMLESS - THE VITAL BASE LAYER

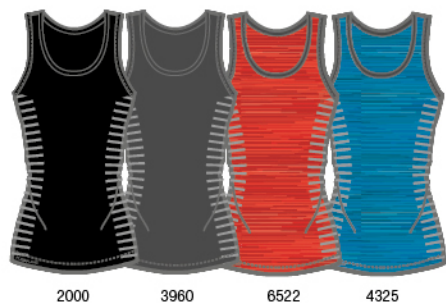

The fabric used for our seamless baselayer products is highly breathable for optimum comfort. It wicks sweat away from your body to the outer surface for quick drying and a great feel, whilst regulating body temperature.

Our fabric is designed to keep you warm in cold conditions and cool in high impact situations – which keeps your body in shape to help you achieve your maximum whatever the sport you are doing. The sides are ventilated and all styles have a snug stretch fit.

All styles are in fashionable colours and perfect for both training and daily use.
